Optima 100

Hexa Bike Superstyle

Top design, made from polypropylene, the moving parts are made of stainless steel (with a 7 years anti-corrosion warranty). It is ideal for getting back into shape and retraining. It will adapt to your pool depth between 100 and 140 cm, it can be used with or without aquagym shoes. It is easy to transport (thanks to the 2 front rollers), to place and to remove from your pool.

Its polypropylene frame means there is a minimal risk of cuts from sharp edges, as can occur with stainless steel cycles...

SPORT PREMIUM

Hexa Bike

The new line Hexa Bike Sport Premium attracts by its sleek design, ease of use and the innovative technology that provides the quality of variable resistance without adjustment: FPR (Full Progressive Resistance). Thanks to its pedal system in resin and EVA, the pedal is used barefoot, the resistance increases gradually in accordance with the pedaling speed. Everybody can achieve a quality training adapted to their capacity.

Manufactured with high quality stainless steel AISI316L featuring anti-rust protection in accordance with international standards. Ergonomic design of the frame (multiple settings to match the user's height). Manual adjustment of the overall height to adapt to different depths of swimming pools: from 1.10m to 1.50m. High adhesion stability feet made of synthetic rubber for the protection of all types of pool floors.

Multi exercise bar for an additional training

Bottle holder kit: handlebar holder & 500cl bottle

- Anatomical aquatic saddle
- Safety, stability
- Anti-rust protection

Ergonomic pedal can be used barefoot

“AquaStrength, **85% muscles in action!...**”

AquaStrength
Upper Body Workout
Bundle

“3 advantages of AquaStrength Functional Aqua Fitness System:

- 1 For all types of users.** The more effort a person applies the more resistance the water provides. The intensity of the workout is determined by the user. For all ages and all physical form levels.
- 2 For all types of training.** AquaStrength material is specifically designed to leverage the 3D characteristics of water. Due to the continuous movement it can be used for both aqua sport on all levels and rehabilitation for various groups. AquaStrength offers a total body workout – 85% muscles in action.
- 3 For all types of pools.** Cleverly designed equipment that requires limited storage and investment. The hard plastic material provides durability (contrary to the common foam materials)
